

CARMEL CLARION COMMUNICATIONS

Who are we? In December 2006 this new entity was created in the Washington Province of Discalced Carmelite Friars for the purposes of disseminating our treasure of recorded conferences on Carmelite Spirituality. It is located in the OCDS Main Office as a part of the Carmel Clarion.

Why? To make available to our secular members, and others interested in hearing the wisdom of our OCD, O. Carm. and OCDS brothers and sisters; information about the lives, writings, and teachings of our Carmelite Saints; as well as our call and vocation to contemplative prayer. This resource is intended to be an ongoing source of Carmelite spirituality.

What? The initial inventory was the tapes previously sold by ICS Publications, which were converted to CD-ROM. Albums recorded at the FORUM, the summer seminar on Carmelite Spirituality, where possible, were divided into individual topics. Now you can hear members of the Institute of Carmelite Studies, and other OCD and O.Carm. Friars, Nuns and Seculars share their wisdom.

When? If you are looking for a resource to provide additional information for formation classes you are teaching, wanting spiritual conferences for your Carmelite meeting, or just enhancing your personal spiritual growth, perhaps while commuting in your car, order audio CDs from the 100 or 300 series. These are about 45 minutes in length and are live recordings of the presentations.

If you are searching for the full-text of the complete works of St. John of the Cross or St. Teresa of Avila, consider ordering the 200 series Carmelite Digital Library. It contains two English translations (the Kavanaugh/Rodriguez 1991 and E. Allison Peers) and the Spanish text. All are cross-referenced with the Douay-Rheims translation of the Bible from the Latin, which most closely matches the version they both used when quoting the Bible. This is an ideal reading, reference and search tool. After loading the contents onto your PC, it can be used to read the *Collected Works and Letters* of Teresa and John. This is helpful if readers need larger type. You can search for favorite themes; compare the English translations with each other or with the Spanish, and save bookmarks to favorite passages for later study. Extensive hyperlinking to footnotes and cited Biblical references facilitate greater understanding. The CD also includes a tutorial which shows you how to use all its varied possibilities.

How? Review CD listing inside and check off those you want to purchase. If ordering more than one CD please enter the total number. Complete the order form by adding total number of 100 and 300 series CD @ \$9.99 each and enter dollar value. Insert dollar value for quantity of 200 series CDs being ordered. Add proper shipping value for the number of CDs from chart. Calculate total amount due and make checks payable to Carmel Clarion Communications. Complete name and address where CDs are to be shipped. *Thank you for your order!*

Carmelite Digital Libraries

The Complete Works of St. John of the Cross and St. Teresa of Avila - Carmelite Digital Library contains the full-text of the *Collected Works and Letters of St. John of the Cross* and the *Collected Works and Letters of St. Teresa of Avila*. This is NOT an audio product. It includes the Spanish text and two translations: the 1991 translation by Kavanaugh/Rodriguez and the E. Allison Peers English translation. Both are cross-referenced using hypertext linking to the Douay-Rheims translation of the Bible from the Latin, the version they both used when quoting the Bible.

Program functions include SEARCH and COMPARE of full-text for all volumes with production of results from both authors individually, or together, based upon which Version 2.0 CD(s) are installed. You can SAVE and ORGANIZE favorite passages as bookmarks for later access, CUT and PASTE into a word processor to CREATE your own teaching or research document, and then easily PRINT. NOTE: Existing customers of CD#200, the St. John of the Cross Digital Library Versions 1.0 or 1.2, must upgrade to Version below.
